

Construction Update (Phase 4) – August 2023

As a reminder, elements of our Phase 4 construction include: 1) HS annex building; 2) expansion of our existing cafeteria; 3) IT building; 4) expanded traffic queuing/parking; and 5) ball field improvements. Work is currently underway on the HS annex building, the IT building and the ball fields. In order to avoid disruption to our school year, expansion of our cafeteria and parking has been postponed until next summer.

Our carpool pick up procedures remain similar to last spring. The Westinghouse Sportsplex (Triple Play) parking lot will continue to be utilized for morning drop offs as well as a “park to pick up” option in the afternoons. The Sportsplex will have a new paved entry/exit; however, we do not have a timetable for that project yet and will make adjustments when necessary.

When utilizing the pickup lines, the third lane (closest to the K8 staff parking lot) is reserved for buses and vans of afterschool programs only. Please continue to use the two lanes closest to the school when transitioning students for arrival and dismissal.

As a reminder, all students should be picked up at the conclusion of the school day, either 3 p.m. (grades K-4) or 3:45 p.m. (grades 5-12).
